(54) Title: PYROVALERONE ANALOGS AND THERAPEUTIC USES THEREOF

(57) Abstract: New compounds that bind to monoamine transporters are described. The compounds of the present invention can be racemic or pure *R*- or *S*-enantiomers. Certain preferred compounds of the present invention have a high selectivity dopamine transporter versus the serotonin transporter. Preferred monoamine transporters for the practice of the present invention include the dopamine transporter, the serotonin transporter and the norepinephrine transporter.
